## The Lady's Cabinet

Where all your secrets are!

### Each work has its own mark,

You can imagine how stuck is the beauty mark! The Saudi company provides personal care products, cosmetics, all ladies belongings, it's called "The Lady's Cabinet".

### We created a specific,

Strategy to move with The Lady's Cabinet mission forward and build that markable beauty impact. We built a feminine effect, sending "The Lady's Cabinet" messages, and presenting meaningful values. Classicism & Zeitgeist together! A mixture that expresses ladies and their aesthetic needs.

### Origins of the logo?

Creating The Lady's Cabinet visual identity takes a part from nature! Logo Construction inspired by the green leaves of spring! the nature icon mixed with the custom type that was carefully created to blend in with the icon.
